

Design and Drawing for Production – D.D.P.

Mrs. Conte

“Design is a plan for arranging elements in such a way as best to accomplish a particular purpose”

The Nature of Art, Engineering, & Design is to open up a world of possibilities. You are adding to the world with your own creations. This is a great and exciting responsibility!

With all of the knowledge you will gain during this course and all of the exploration that will take place, there are certain expectations that also exist.

- **Take risks** – Being reserved and hesitant will not stand in any aspect of Design. You must run the risk of failing if you are to succeed.
- **Be independent** – Come up with wild solutions to the posed problems and also create challenges for yourself.
- **Be a team player** – Be independent in a way to brainstorm your own ideas but play off the ideas of others and contribute to your design teams!
- **Be prepared** – Make sure you have the materials necessary to produce! Take advantage of the limited time you have within your classroom.
- **Participate** – You will be as much of a help to your classmates as they are to you. Participation is not only fulfilling the requirements of the class but also being a part of the environment and your teams.
- **Explore** – Do not simply do what is familiar and comfortable. Seek out new ideas and new information. Allow yourself to grow. This is not the time to rely on what you think you know, this is the time to explore new thoughts, ideas and processes.
- **Have ambition** – Settle for nothing but your best.

Your evaluation will be based on:

Class Participation
Craftsmanship
Work ethic
Creativity
Conduct
Time management
Completion of assignments

Required Supplies

- A folder for handouts
- Quad-ruled Composition Notebook (graph paper inside)
Search Engineer's notebook on Amazon for "fancy" ones
- Blue or black ballpoint pens
- Mechanical pencils
- 6" ruler (I like the clear ones but it's your preference)
- 1 twin tip sharpie marker (OR 1 Ultra Fine Black Sharpie Marker AND 1 Fine Black Sharpie Marker)
- 1 large glue stick
- Zipper Pouch (large enough to fit pens, pencils, glue stick and ruler inside)
- Blunt point small kid scissors

You may purchase these supplies at any local office supply store, amazon and etc.

Please be sure to bring these materials to every class. Your composition notebook will only be used for this class. It is your Engineer's Notebook! If you have any questions, please do not hesitate to contact me via email.

JConte@bmchsd.org

Additional supplies may be required throughout the course; in this case, students will be given advanced notice.

Thank you,

Mrs. Conte
